

# **RIGLYNE VIR SAVOF HENGEL REKORD REGISTRASIES**

## **MET SAAMGEVATTE GVOV HUISHOUDELIKE REKORD RIGLYNE**

### **Inleiding / Introduction:**

#### **Algemeen:**

1. Die oorhoofse riglyne het betrekking op tradisionele oewer hengel tensy anders vermeld.
2. Elke hengelaar werk en streef na sekere doelwitte toe en wil graag beloning ontvang vir sy / haar prestasies.
3. Die vangs van 'n rekord vis is 'n bonus vir die insette wat gemaak is in die sport.
4. Daarom is dit belangrik dat jy nie jouself te na kom deur nie seker te maak van die nodige prosedures en riglyne wat vereis word vir die aansoek om 'n rekord agter jou naam te skryf nie.
5. Dit is daarom nodig dat al die korrekte riglyne en prosedure nagekom moet word tydens 'n aansoek.
6. Die hengelaar is dus verantwoordelik om die dokumentasie deeglik te lees alvorens hy / sy die aansoek instuur en seker maak dat die aansoek volledig ingehandig word.
7. Onvolledige aansoeke sal verwerp word wat tot gevolg sal hê dat 'n "regmatige" rekord nooit geregistreer word nie.

#### **Notas:**

1. Dit is nie die beampte by die water se werk om jou rekord te registreer nie. Die beampte is bloot verantwoordelik om die vangs te weeg en op aanvraag van die hengelaar 'n sertifikaat van die betrokke vangs aan die hengelaar uit te reik.
2. Hierdie riglyne en reëls is opgetrek om in lyn te wees en voorsiening te maak vir die betrokke Unie (**GVOV**) se reëls en regulasies en is geskryf in ooreenstemming met die **SAFOV** reëls en riglyne vir die registrasie van rekord vis.

#### **General:**

1. The overruling guidelines refer to traditional bank angling unless otherwise noted.
2. Each angler work hard towards certain goals and would like to receive recognition for his / her achievements.
3. The catch of a record species is the bonus for the contributions you have made into the sport.
4. It is therefore important that you do not blind side yourself by not ensuring that you are following or executing the correct procedures when applying to put a new record behind your name.
5. It is therefore important that the correct procedural guidelines are followed during the application.
6. The angler is responsible to read the instructions and documentation properly prior to sending the application in and ensuring him / her that the application is fully complete.
7. Incomplete applications will be rejected that may result in rejection and that a "rightful" record never been recorded.

#### **Notes:**

1. It is not the work of the official at the water to register your record. The official is merely responsible to weigh the catch and only on request of the angler to provide and issue a certificate of the relevant catch to the angler.
2. This guideline and forms has been drafted to be in line and cater for the relevant Union (**GFBAF**) rules and regulations and are written in accordance with the **SAFBAF** rules and guidelines for the registration of record fish.

#### ***Onthou / Remember;***

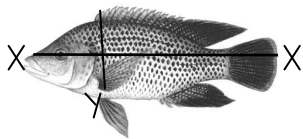

***"What the big print giveth the small print taketh away"***

## REKORD AANSOEK PROSEDURES EN RIGLYNE

### Fotografering van vangste

1. Foto's moet geneem word sodat die hele lengte van die vis (sy-aansig) duidelik sigbaar is. Daar moet veral gelet word op die volgende:
  - a. Alle vinne (veral rugvin) moet duidelik sigbaar wees – dws oopgespan wees.
  - b. Die vis moet op 'n agtergrond geplaas word wat identifikasie vergemaklik bv. Donker vis op ligte agtergrond en ligte vis op swart agtergrond.
  - c. Plaas 'n lineal (of enige maklik herkenbare voorwerp bv Koeldrankblik) langs die vis om werklike grootte aan te dui.
2. Neem alle foto's vanaf ongeveer 1m.
3. Swart Baars: Bek moet toe wees.
4. Geelvis: Twee fotos van die onder-kaak moet die aansoek vergesel.

### METING VAN DIE VIS

Fish with square tail – Vis sonder gepunte stert

Lengte is gemeet van X – X. Vanaf die punt van die toe mond tot die einde van die stertvin.

Length is measured from X to X the tip of the closed mouth to the end of the tail fin.

Omtrek is gemeet vanaf Y terug tot Y om die breedste deel van die bors.

Girth is measured from Y to Y around the broadest part of the body.

### BEWARING VAN VIS

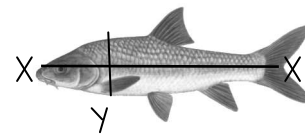

1. Waar moontlik moet alle rekord visse weer vrygelaat word nadat dit geweeg en foto's daarvan geneem is.
2. Indien die vis sodanig beseer is en vrylating nie moontlik is nie kan die vis behou en bewaar word en/of indien verlang vir wetenskaplike navorsing beskikbaar gestel word
3. As die hele vis nie bewaar kan word nie, moet die vel afgetrek word (Die kop, kieuwe en vinne moet nie verwyder word nie), die vis moet dan opgerol word en geplaas word in:
  - a. Verdunde formalin (1 deel met 6 dele water)
  - b. Brandspiritus.
  - c. Sout

## RECORD APPLICATION PROCEDURES AND GUIDELINES

### Photographing of catches

1. Photos must be taken clearly showing the whole length (side-view) of the fish. Attention must be paid to the following points:
  - a. All the fins (especially the dorsal fin) must be clearly visible – ie. Opened up.
  - b. The fish must be placed against a background which contrasting easy identification i.e. light coloured fish on a dark background and a dark fish on a light background.
  - c. Place a ruler (or easily recognizable object ie cold drink can) alongside the fish to indicate actual size.
2. Photographs must all be taken from approximately 1m.
3. Black Bass: The mouth must be closed.
4. Yellow Fish: Two photographs of the bottom jaw must accompany the application.

### MEASURING THE FISH

Vis met gepunte stert – Fish with forked tail

Gemeet vanaf X tot X. Vanaf die punt van die toe mond tot die binnekant van die vurk in die stertvin.

Measured from X to X the tip of the closed mouth to the inside of the fork in the tail fin.

Omtrek is gemeet vanaf Y terug tot Y om die breedste deel van die bors.

Girth is measured from Y to Y around the broadest part of the body.

### PRESERVING OF FISH

1. Where possible should all record species be released after it has been weighed and photos has been taken
2. In the case that the fish are injured to such an extend that it is not possible to be released may the fish be kept and preserved and if desired be donated for scientific research
3. If unable to preserve the complete fish, the specimen should be skinned (leaving the head, gills and the fins intact), roll this up and preserve in:
  - a. Dilute formalin (1 part with 6 parts water)
  - b. Mentholated Spirits
  - c. Salt

## LYN KLASSIFIKASIE

Daar bestaan 3 afsonderlike lyn dikte klasse waarvoor rekords aansoek gedoen kan word nl:

- Lig: Lyn met 'n deursnee van 0.22mm en dunner.
- Medium: Lyn met 'n deursnee van tussen 0.22mm en 0.30mm.
- Open: Lyn met 'n deursnee hoër as 0.30mm. asook enige sintetiese lyn bv. Dacron, Powerbraid en Fireline.

## REKORD KLASSIFISERING

Daar is twee rekord kategorieë waarvoor individue aansoek kan doen naamlik:

1. Beheerde Kompetisie Rekords
2. Ope (Buite Kompetisie) Rekords

## BEHEERDE KOMPETISIE REKORDS

1. **Omskrywing (A) Huishoudelike Provinsiale Rekords:** Hierdie is enige **Unie** beheerde kompetisie of proewe wat beheer en geadministreer word deur 'n hengel beampte met die minimum kwalifikasie as 'n Provinsiale beampte.
2. **Omskrywing (B) Nasionale Rekords:** Hierdie is enige kompetisie of proewe op Provinsiale en hoër vlakke wat beheer en geadministreer word deur 'n hengel beampte met die kwalifikasie en aanstelling as 'n **SAFOV** Beampte.
3. Die volgende prosedures moet gevolg word wanneer aansoek gedoen word vir 'n rekord in hierdie kategorie:
  - a. Vir lyn klas aansoeke: Die hengelaar se vangs moet geweeg word deur die beampte alvorens hy die uitrusting waarmee hy / sy die vis gevang het weer gebruik.
  - b. Die gooi voorslag en hoof lyn moet deur die beheer beampte gekontroleer en gemeet word met 'n micrometer op 3 plekke oor 'n 2m lengte van die lyn alvorens die hengelaar weer mag werp. Die vis moet ook weer in die hounet geplaas word alvorens die hengelaar weer mag werp.
  - c. Die gooi voorslag mag nie langer as twee (2) stoklengtes (strop ingesluit) wees nie. Indien dit wel langer as twee stoklengtes is sal die voorslag as die hooflyn geag te wees. Indien die voorsalg 0.28mm is, dan is die aansoek vir medium gerei en indien oor 0.30mm dan is die aansoek vir ope gerei klas.
  - d. Die sone / kompetisie beheer beampte reik die hengelaar uit met 'n sertifisering van die vangs (sien Vorm A) op versoek van die hengelaar as bewys van die vangs met die vangs besonderhede.
  - e. Die hengelaar is nou verantwoordelik om aansoek te doen vir sy / haar beheerde rekord via sy / haar klub na die Provinsiale rekordsbeampte en indien relevant na die SAVOF rekordsbeampte.
  - f. Dit is ook die verantwoordelikheid van die betrokke Provinsiale rekordsbeampte om die vangs te kontroleer tydens huishoudelike Unie registrasie en die hengelaar te verwittig daarvan indien dit nodig sal wees om aansoek te doen vir 'n SAVOF rekord.

## LINE CLASSIFICATIONS

There are 3 Line thickness classes that exist for which records may be applied for:

- Light: Line with a diameter of 0.22mm and thinner.
- Medium: Line with a diameter of between 0.22mm and 0.30mm.
- Open: Line with a diameter thicker than 0.30mm. All synthetic lines are included in this category ie. Dacron, Power-braid and Fire-line.

## RECORD CLASSIFICATION

There are two categories of records for which individuals may apply for namely:

1. Controlled Competition Records
2. Open (Out of Competition) Records

## CONTROLLED COMPETITIONS RECORDS

1. **Definition (A) Internal Provincial Records:** This is any **Union** controlled competition or trials presented that is controlled and administered by an angling official with the minimum qualifications of a Provincial Official.
2. **Definition (B) National Records:** This is any competition or trials on Provincial and higher level that is controlled and administered by an angling official with the qualification and appointment as **SAFBAF** Official
3. The following procedures are to be followed in applying for a record in this category:
  - a. For line class applications. The angler's fish is to be weighed by the official before the equipment used by that specific angler may be used again by him or her.
  - b. The casting leader as well as the main line must be checked and measured by the controlling official with a micrometer on 3 places along a 2m length of the line in question before the angler may cast his line in again. The fish must also be placed in the keep-net before the angler cast again
  - c. The casting leader may not be longer than twice (2) the length of the rod (trace included). If it is longer than twice the length the leader will be deemed to be the main line. If a leader of 0.28mm is being used then the application will be for medium tackle and if over 0.30 the application to be for open class.
  - d. The official in charge of the zone / competition is to complete a certification of the catch (see Form A - enclosed in this booklet) on request of the angler as proof of the catch with the details of the catch.
  - e. The angler is now responsible to apply for his / her controlled competition record via his / her club to the Provincial records officer and if relevant to the SAFBAF records officer.
  - f. It is also the responsibility of the relevant Provincial records official to control and verify the catch during household Union registration of the record catch and then to inform the angler should it be necessary to apply for a National SAFBAF record.

- g. Die hengelaar moet 'n geaffilieerde lid van die betrokke Unie en SAVOF wees wie deelgeneem het aan 'n goedgekeurde beheerde wedstryd ingevolge die bostaande reëls waartydens die vangs gemaak was om te kwalifiseer vir 'n beheerde kompetisise rekord. Aansoeke wat nie die relevante affiliasie besonderhede aandui nie sal nie verwerk word nie.
  - h. Indien die hengelaar sy / haar vangs in die hounet plaas en eers aan die einde van die dag die vangs weeg weeg sal die vangs as 'n beheerde ope klas gerei geag word, ongeag die werklike uitrusting gebruik vir die vangs. Die hengelaar mag egter ook aansoek doen vir 'n Ope nie beheerde rekord vir die bepaalde lynklas deur om die prosedure vir die aansoek om ope rekords te volg. Die vereiste fotos kan dan vervang word met Vorm A die Beampte sertifisering van vangs tydens die kompetisie.
  - i. Rekords kan in verskeie afdelings geregistreer word by name: Seniors (Mans), Dames, Juniors en Penkoppe.
  - j. Junior rekords mag deur 'n hengelaar geëis word wie jonger as 19 jaar was ten tye van die vangs, met spesifieke verwysing na seuns en dogters.
  - k. Penkop rekords met betrekking tot die bepaalde (GVOV) Unie mag deur enige hengelaar geëis word wie jonger as 13 was ten tye van die vangs.
  - l. Die goue reël bly; Indien onseker, doen aansoek en laat die rekords beampte besluit.
  - m. Slegs vangste gemaak binne die RSA lands grense sal in aanmerking geneem word vir betrokke Unie en **SAVOF** rekords in alle kategorië, met inbegrip van beide Beheerde en Ope afdelings.
- g. The angler must be an affiliated member of the relevant Union and SAFBAF who competed in a sanctioned competition in accordance to the above rules when the catch was made to qualify for the record. Applications that do not reflect the relevant affiliation details of the angler on the application form will not be processed.
  - h. If the angler places his / her catch in the keep-net and only weighs the fish at the end of the day will the fish be eligible for an open class controlled competition record irrespective of the equipment used. The angler may however proceed to apply for an Open non controlled record for the relevant line class by following the procedure as set out for applying for Open records. The required photos that is then required of the fish may then be replaced by Form A the Official's certification of the catch.
  - i. Records can be registered in various sections by names: Seniors (Men), Ladies, Juniors and "Penkoppe".
  - j. Junior records may be claimed by any angler who were younger than 19 at the time of the catch, with specific reference to boys and girls
  - k. "Penkop" records related to the relevant (GFBF) Union may be claimed by any angler who were younger than 13 at the time of the catch.
  - l. The golden rule remains; If in doubt apply and let the records officer decide.
  - m. Only catches made within the Borders of the RSA will be considered for the relevant Union and **SAFBAF** records in all categories included for both the Controlled and Open sections.

### OPE REKORDS

1. Alle hengelaars wat lede is van 'n hengelklub en by 'n betrokke Unie en **SAVOF** geaffilieerd is wat ingevolge die relevante Ordinansies hengel en 'n moontlike rekord vangs gemaak het tydens 'n klub kompetisie en of 'n sosiale hengel uitstappie is geregtig om aansoek te doen vir 'n bepaalde Unie en / of SAVOF Ope nie beheerde Kompetisie rekord.
2. Hengelaars wat 'n vangs maak tydens 'n Unie Beheerde aangeleentheid en die bepaalde vis nie kwalifiseer as interne huishoudelike Unie rekord nie maar waarvan die gewig wel swaarder is as die van die SAVOF Ope rekord mag aansoek doen vir die SAVOF Ope rekord binne die bepaalde lynklas of Ope gerei lynklas.
3. Aansoeke wat nie die relevante affiliasie besonderhede aandui nie sal nie verwerk word nie. Sodanige aansoeke is ook onderhewig daaraan dat die aangehegte vorms en bewyse korrek en volledig moet wees.
4. Aansoeke moet vergesel word van die nodige relevante dokumentasie, fotos, bewysstukke ens. soos voorgeskryf in die reëls.

### OPEN RECORDS

1. All anglers whom are members of an angling club that are affiliated at a relevant Union and **SAFBAF** who whilst angling in terms of the relevant Ordinance that caught a possible record species during a club competition or social angling trip are entitled to apply for the relevant Union and / or SAFBAF Open non controlled competition record.
2. Anglers that made a catch during a Union administered competition of which the fish in question does not qualify for the internal Union record, yet the weight of the fish is heavier than that of the current SAFBAF Open record, may apply for the SAFBAF non controlled Open record within the relevant line class or in the Open line class.
3. Applications that do not reflect the relevant affiliation particulars will not be processed. Such applications are subjected thereto that the required and attached forms and evidence must be correctly submitted.
4. Applications must be accompanied by the relevant documentation, photos, proof of evidence etc. as prescribed by the rules.

## AANSOEK PROSEDURES

1. Die prosedures vir so 'n aansoek is soos volg:
  - a. Die vangs moet op 'n Geykte skaal geweeg word, en voldoen aan die minimum vereistes soos voorgeskryf in die SAFOV reëls. Alternatiewelik moet die skaal voldoen aan die wetlike vereistes soos vir die handel.
  - b. Die volgende moet die aansoek vergesel:
    - 2 Fotos van die vis, geneem soos beskryf in hierdie prosedure en riglyne (Een foto met 'n herkenbare item saam met die vis en 'n tweede foto van die hengelaar en sy vangs)
    - Sertifisering van die gewig asook die besonderhede van waar die geykte skaal gehou word.
    - Volledige aansoek vorm.
  - c. Indien 'n hengelaar tydens 'n beheerde kompetisie 'n vis vang wat groter is as die Ope rekord mag die hengelaar aansoek doen vir die ope rekord. Die vereiste fotos word in hierdie geval vervang met die Beamptes sertifisering – Vorm A.

**LW:** Dit is die hengelaar se verantwoordelikheid om hierdie aansoek in te dien aangesien dit tog die hengelaar was wat die rekord vangs gemaak het ongeag die bepaalde omstandighede.

2. Waar geen getuies by was tydens die vangs moet die hengelaar 'n Beëdigde verklaring indien saam met die aansoek.
3. Junior rekords mag deur 'n hengelaar geëis word wie jonger as 19 jaar was ten tye van die vangs, met spesifieke verwysing na seuns en dogters.
4. Penkop rekords met betrekking tot die bepaalde (GVOV) Unie mag deur enige hengelaar geëis word wie jonger as 13 was ten tye van die vangs.
5. Die goue reël bly; Indien onseker, doen aansoek en laat die rekords beampte besluit
6. Slegs vangste gemaak binne die RSA lands grense sal in aanmerking geneem word vir betrokke Unie en **SAVOF** rekords in alle kategorië, met inbegrip van beide Beheerde en Ope afdelings.

## APPLICATION PROCEDURES

1. The procedures to be followed are as follows:
  - a. The catch must be weighed on a Calibrated scale and comply with the minimum requirements as prescribed by the SAFBAF rules. Alternatively the scale should comply with lawful requirements for use as in the trade.
  - b. The application must be submitted along with:
    - 2 Photos of the fish as described in this procedures and guidelines (One photo with a recognizable item together with fish and a second photo with the Angler and the catch)
    - Certificate of weight as well as the contact particulars of the place where the certified scale is kept.
    - Completed application form.
  - c. Should an angler catch a fish larger than an open record during a controlled competition may he/she then apply for the open record. The required photos in this instance are then replaced by the Officials certification – Form A.

**NB:** Once again it is the responsibility of the angler to submit the application via the correct channels; after all it was the angler that caught the record fish, irrespective of the circumstances.

2. Where no witnesses were present when the catch was made, then the angler must submit an affidavit together with his/her application.
3. Junior records may be claimed by any angler who were younger than 19 at the time of the catch, with specific reference to boys and girls.
4. "Penkop" records related to the relevant (GFBF) Union may be claimed by any angler who were younger than 13 at the time of the catch.
5. The golden rule remains; If in doubt, apply and let the records officer decide
6. Only catches made within the Borders of the RSA will be considered for the relevant Union and **SAFBAF** records in all categories included for both the Controlled and Open sections.

<b><u>REKORD REGISTRASIES VIR ANDER FASETTE</u></b>	<b><u>RECORD REGISTRATIONS FOR OTHER FACETS</u></b>
<p>1. Hierdie klosule (afdeling) is suiwer beperk tot die <b>GVOV</b> se huishoudelike reëls en kom tans nie in aanmerking vir <b>SAFOV</b> registrasies nie.</p> <p>2. Registrasie van 'n rekord vang vir enige van die "Sub" fasette in hengel wat nie in die tradisionele hengel faset soos in voorafgaande bladsye beskryf is nie sal hanteer word in terme van daardie faset se oorhoofse reëls en regulasies met betrekking tot kategorië en lynklasse.</p> <p>3. Gemelde "Sub" fasette word gereken te wees Paal Hengel, Spesie (Karp) Hengel en Feeder Hengel.</p> <p>4. Registrasie van 'n Rekord vang binne hierdie fasette sal egter steeds onderhewig wees aan die voorafgaande algemene standaard regulasies.</p> <p>5. Hierdie onderskeie fasette sal elk gekategoriseer word met betrekking tot beheerde en nie beheerde kompetisies. Onderhewig aan die standaard fotos, verklarings en nodige bewyse om die vang te staaf binne die bepaalde faset.</p> <p>6. <b>Paalhengel</b> het nie 'n bepaalde lynklas nie maar daar is tans verskeie afdelings waarbinne rekord vangste geregistreer kan word soos byvoorbeeld:</p> <ul style="list-style-type: none"><li>a. Mans</li><li>b. Meesters</li><li>c. Dames</li><li>d. Juniors (o/23 – o/18 – o/13)</li></ul> <p>7. <b>Spesie Hengel</b> het ook nie 'n bepaalde en geldende lynklas dikte nie en registrasie van rekord vangste is beperk tot Karp verwante spesies alleen. Daar is egter wel uitsonderings wat vermeld moet word:</p> <ul style="list-style-type: none"><li>a. Hengelaars neem deel in pare binne kompetisie verband en beide hengelaars sal in aanmerking kom vir 'n rekord toekening ongeag watter hengelaar die vis gespeel en geland het.</li><li>b. In hierdie faset is daar tans nie enige kategorië klasse soos Mans, Dames ens. nie en is alle hengelaars wat daaraan deelneem in een ope klas ingedeel.</li></ul> <p>8. <b>Feeder Hengel</b> rekords se reëls sal geldend wees soortgelyk aan die van Spesie hengel met betrekking tot lynklas en kategorië. Die verskil is egter die volgende:</p> <ul style="list-style-type: none"><li>a. Alle spesies wat gevang word binne die ordonasies kan kwalifiseer vir 'n rekord binne hierdie faset.</li><li>b. Soos met Tradisionele en Paal hengel kwalifiseer hengelaars slegs individueel vir 'n bepaalde vang.</li></ul> <p>9. <b>Registrasie van rekord:</b> Vorm D moet volledig voltooi en ingehandig word by die Rekords Beampte</p>	<p>1. The clauses in this section are purely restricted to the <b>GFBAF</b> household rules and are currently not taken in consideration for <b>SAFBAF</b> regulations.</p> <p>2. Registration of a record catch for any of the "Sub" facets in angling that are not sorted under normal bank angling as described in the previous sections will be dealt with in terms of the overruling regulations of that particular facet in respect of line classes and categories.</p> <p>3. Said "Sub" facets are considered to be Match Angling, Species (Carp) Angling and Feeder Angling.</p> <p>4. Registration of a record within these facets will however still be under limitations of the general standards rules and regulations as described in the previous sections.</p> <p>5. Each of the different facets will be categorized with reference to controlled and non controlled competitions; however it will still be limited to the standard photos and declarations as proof of the catch within the relevant facet.</p> <p>6. <b>Match Angling</b> does not have a specified line thickness although there are various categories within a record catch can be registered for example:</p> <ul style="list-style-type: none"><li>a. Men's</li><li>b. Masters</li><li>c. Ladies</li><li>d. Juniors (o/23 – o/18 – o/13)</li></ul> <p>7. <b>Species Angling</b> also do not have a specified and prescribed line class therefore registrations of records will be limited to Carp related species only. However there is some exemptions that needs to be mentioned:</p> <ul style="list-style-type: none"><li>a. Anglers participate in pairs during competitions therefore both the anglers on the peg will be considered for the record award irrespective who of the two anglers played the fish.</li><li>b. In this facet there are no class categories such as Men's, Ladies, juniors etc and all anglers participating in this facet will fall under one open class category.</li></ul> <p>8. <b>Feeder Angling</b> records will be bound by rules similar to that of Species Angling in respect of line class and categories but with the following differences;</p> <ul style="list-style-type: none"><li>a. All species caught within the relevant ordinance will qualify for a record catch within this particular facet.</li><li>b. Same as with the traditional Bank angling and Match angling facets shall only individuals qualify for a particular catch.</li></ul> <p>9. <b>Registration of record:</b> Form D must be completed and submitted to the Records Officer.</p>

Vorm A

Form A

**SERTIFKAAT VAN VANGSTE GEMAAK - (Uitgeryk tydens 'n Beheerde wedstryd)**

**CERTIFICATION OF CATCH MADE - (Issued during a controlled angling match)**
